ORDER WARSHIP MOVEMENTS

WASHINGTON, March 8.—General Carranza has been informed in a note from the United States government that unless there is an improvement in conditions with respect to foreigners and their interests in Mexican territory under his control, such steps as may be necessary will be taken by the American government to obtain the desired protection.

Strongest Since Demand on Huerta.
The note is the strongest and most emphatic document that has been sent by the Washington government to Mexico since the correspondence with Huerta a year ago. Carranza is warned that the United States has viewed with deep concern the growing complaint made by foreigners generally against his administration of affairs and, now, in effect demands an early change. The contents of the communication were revealed to several of the ambassadors and ministers here who expressed satisfaction at its urgent language. Some regarded it as an entire change of policy toward Mexico on the part of the United States. American Consul Stillman should have presented the note to Carranza today. A copy of it was sent to the Brazilian minister at Mexico City to be shown to General Obregon, the Carranza commander. In the meantime some movements of American warships have been ordered, the effect of which will be a naval demonstration that is hoped by some officials, will convince General Carranza of the determination of the American government to obtain a change in conditions in Mexico City.

To Send More Warships.
Secretary Daniels conferred with President Wilson tonight over the prospect of sending additional warships to Vera Cruz. Only one vessel, the battleship Delaware, has been at Vera Cruz for several weeks but it was learned on high authority that two more battleships would be ordered from Guantanamo to Vera Cruz probably tomorrow. It had been planned to send the Delaware to Guantanamo soon to join the Atlantic fleet in its spring maneuvers. As a result of latest developments the Delaware will remain at Vera Cruz indefinitely; the cruiser Tacoma left Port Au Prince, Haiti, today under orders to proceed at once to Vera Cruz, the gunboat Petrel already is enroute from Mobile, Alabama, and the cruiser Des Moines is bound from Progreso to Vera Cruz, while the gunboat Sacramento is at Tampico. Other available light draft vessels—more valuable than battleships in tropical waters—are the Gunboats Wheeling and Nashville, being held in readiness with the Armored Cruiser Washington in Haitian and Dominican waters while the entire Atlantic fleet of 21 first class battleships is at Guantanamo within two and a half days sail of Vera Cruz. Mr. Daniels gave this summary of the position of the warships but declined to discuss future movements.

Admiral Acute Crisis is Reached.
That conditions have again reached an acute crisis was however, admitted at all the government departments. Asked whether the United States intended to use physical force to obtain a compliance with its requests Secretary Bryan today replied that "nothing had been decided upon yet beyond representations," and that it was best to meet situations "as they arose."

Latest reports from Mexico City indicate a menacing condition of affairs for the 25,000 foreigners there, of whom 2,500 are Americans. The Carranza authorities have commanded all the medicines and medical supplies in the chief hospital and sent them to Vera Cruz. An appeal has been made to the United States to dispatch a hospital ship to Vera Cruz, to send medical supplies to Mexico City and the Mexican Red Cross has sent an urgent petition through the American Red Cross for protection against the Carranza authorities and permission to co-operate with the international relief committee in handling the starving population.

CHARGE NEARLY MILLION DOLLARS HAVE BEEN IMPROPERLY WITHHELD

Dissension Between Chicago Livestock Exchange and State Commission Culminates in Charges Made in Report by Dunne.

Chicago, March 8.—Dissension between the Chicago Livestock Exchange and the state livestock commission culminated tonight in charges that nearly a million dollars have been improperly withheld from shippers to the stock yards of cattle afflicted with the lumpy jaw disease. The charges were made in a reported presented by Governor Dunne and were the result of an investigation by a special committee.

The report in part alleges: "That the Standard Packing company which held the 'lumpy' jaw contract for twenty years should, in the twelve years period between 1902 and 1914 have turned over \$4.15 per animal more than it did to the shippers—the holdouts being \$1 on hides and \$3.15 on offal.

"That the Bismark Packing company to whom the contract was turned over soon after the Democratic livestock board took office should have turned over \$2.85 more per animal.

"That an average of 250 'lumpy jaw' cattle are slaughtered each week which would make the cost to shippers \$647,000 during the Standard contract and \$50,000 for the Bismark company. The livestock exchange was criticised by the governor the charge being that it failed to keep a close track on the Standard company in which its secretary was said to be interested."

CONFIRMS REPORT THAT MEXICAN CAPITAL IS TO BE EVACUATED

Diplomatic Corps Decides to Remain in Mexico City—Carranza Invites Diplomats to Move to Vera Cruz.

Washington, Mar. 8.—Secretary Bryan stated late today that he had received notice from General Carranza confirming the report that Mexico City would be evacuated and that the diplomatic corps had decided to remain in Mexico City.

A statement issued by Secretary Bryan said: "The state department has received a note from Mexico City saying that Carranza has confirmed the announcement that Mexico City will be evacuated and has invited the diplomatic corps to move to Vera Cruz or to any other town under his jurisdiction stating that this would not be considered by him as an act of recognition. It is understood that the diplomatic corps feel that their departure from the City of Mexico would not be best for the foreign interests under their care."

WILLARD-JOHNSON FIGHT WILL TAKE PLACE IN HAVANA APRIL 3

HAVANA, Mar. 8.—A fight for the world's heavy-weight championship will take place at Havana Saturday, April 3rd, between Jack Johnson and Jess Willard.

The last obstacle was removed this afternoon when Jack Curley, who endeavored to have the men meet at Juarez, Mexico, March 6th, received a cable from Willard saying that he would start immediately for Havana arriving here from New Orleans, Mar. 15th. The terms for the fight are identical with those which would have prevailed had the encounter taken place at Juarez. The site for the battle has not yet been selected.

Johnson began training today.

BUSINESS SESSIONS OF SUFFRAGE [MEETING OPEN AT INDIANAPOLIS]

INDIANAPOLIS, Ind., Mar. 8.—Business sessions of the third annual meeting of the Mississippi Valley suffrage conference, opened here today. Discussion of literature and publicity occupied the morning session and the afternoon was devoted to reports of the progress of the suffrage in southern states and to further consideration of propaganda. Suffrage propaganda was discussed by Mrs. Catherine W. McCulloch, Chicago; Mrs. Grace Wilbur Trout, Illinois, and Miss Flora Dunlap, Iowa.

GEN. VON DITTFURTH KILLED.

Berlin, via London, March 8.—(10:50 p. m.)—Major General Von Dittfurth, commander of the Landwehr brigade and a member of the Prussian diet, was killed in battle near Lomza in Poland last Saturday. He had been well known as a writer on military subjects.

RAFAEL LOPEZ IS CAPTURED.

Salt Lake City, Utah, March 8.—A telegram has just been received by Sheriff John Corless from Nogales, Arizona, announcing the capture there of Rafael Lopez, Mexican bandit, who more than a year ago terrorized Bingham, Utah, killing six deputy sheriffs before his escape.

LA TOURAINE REACHES HAVRE.

London, March 8.—(7:55 p. m.)—A message to Lloyds from Havre tonight announces the arrival of the LaTouraine at that port.

ANNULS NORTH DAKOTA LIGNITE COAL RATE LAW

SUPREME COURT ANNOUNCES DECISIONS IN RAILROAD CASES

Lays Down Principle That it is Beyond Power of States to Require Railroad to Carry One Commodity at a Loss or Only Nominal Profit, Even Though an Adequate Profit is Obtained From Its Business as a Whole.

Washington, Mar. 9.—The supreme court today laid down the principle that it is beyond the power of the states to require a railroad to carry one commodity or class of traffic at a loss or only nominal profit even though an adequate profit is obtained from its business as a whole, within the state.

Under this principle, the court annulled the North Dakota Lignite coal rate law as to the Northern Pacific and the Minneapolis St. Paul and Northern Pacific and the West Virginia two-cent passenger rate law as to the Norfolk & Western.

Justice Hughes announced the decisions. Justice Pitney alone dissented.

In arriving at its general conclusion the court held that when a state selects one commodity or class of traffic for regulation, it must apportion to it a proper part of all general expenses and then allow substantial compensation. "The state cannot estimate the cost of carrying coal," said Justice Hughes in the North Dakota case, "by throwing the expense incident to the maintenance of the road bed and the general expenses, upon the carriage of wheat, or the cost of carrying wheat by throwing the burden of the upkeep of the property upon coal and other commodities."

In the West Virginia case he said "It would appear to be outside the field of reasonable adjustment that the state should demand the carriage of passengers at a rate so low that it would be justified only by placing upon shippers of goods a burden of excessive charges in order to supply an adequate return for the entire service."

Furthermore the justice declared, such action could not be justified as a declaration of public policy, to develop an infant industry or make one community independent of another.

May Reduce Other Rates.

"While local interests serve as a motive for enforcing reasonable rates," he added, "it would be a very difficult matter to say that the state may compel the carrier to maintain a rate less than reasonable to build up a local enterprise. That would be to go outside the carriers undertaking and would be equivalent to an appropriation of its property to public uses upon terms to which the carrier had in no way agreed. It does not aid the argument to urge that the state may permit the carrier to make good its loss by charges for other transportation. If other rates are exorbitant, they may be reduced."

The court left undetermined the exact element to be considered in fixing a value for railroad property for rate making purposes, accepting the findings of the states in each case as showing substantial compensation had not been allowed for the service embraced within their laws.

Extends Injunction.

The supreme court today extended its injunction granted last week in the New York alien labor cases, so as to require the public service commission to approve vouchers of subway contractors employing aliens during litigation over the constitutionality of the law before the court.

CARRANZA OFFICIALS SEIZE BRITISH STEAMER AT CAMPECHE

NEW ORLEANS, La., March 8.—The British Steamship Vyvishbrook has been seized by Carranza authorities at Campeche and her commander, Captain Muir, has been placed in jail, according to mail advices reaching here tonight from Progreso.

The advices came from what is regarded as a thoroughly reliable source. The steamer sailed from New Orleans for Progreso Feb. 15th. Captain Muir found the port of Progreso had been closed by Carranza authorities, the message said and proceeded to Campeche. There Carranza officials according to the communication boarded the vessel, took charge and placed Captain Muir in prison. No further details were given.

COAST ARTILLERYMAN CONFESSES TO MURDER

Honolulu, Mar. 8.—J. Corbett, a coast artilleryman stationed at Fort Ruxer, six miles from here, surrendered to the police here today, asserting that he killed J. Jantney at Indianapolis, Ind., Feb. 12, 1913. Corbett said that his guilty conscience drove him to confess the deed and to give himself into the hands of the police.

War News Summarized

While fighting continues on nearly all the battle fronts, no engagements which would indicate the approach of a decisive victory for either of the contending parties has been reported. The Russians still report progress against the Germans in north Poland and assert that an offensive movement begun by the Germans farther south in the Pilsa river region has been repulsed and that the Russians themselves have taken up the attack.

In the west, where snow again is falling heavily, both the allies and the Germans make claims to positions won and capture of officers, men and guns. Near Perthes, the French declare that their forces have taken an additional line of trenches, about 1,600 feet in length.

In the Dardanelles, the shelling of the forts guarding the waterways continues, with the allies claiming that great damage is being done to the fortifications and the Turks asserting that the injury wrought thus far is immaterial. The British admiralty says that its East Indian fleet has silenced all the hostile forts and batteries of the Turks in the vicinity of Smyrna, while Petrograd tells of the destruction, by the Russian warships, of Zunguldiak, Kozlon and Kilimli, Turkish ports on the Black Sea.

The Greek crisis continues. M. Zaimis who had been asked to form a ministry to succeed that of M. Venizelos has declined to accept the task and M. Gounaris has been requested by King Constantine to assume it.

BRITISH STEAMER BENGROVE GOES DOWN OFF ILFRACOMBE

Explosion Shakes Everybody On Their Feet—All of Crew is Saved.

Ilfracombe, England, Sunday. (Delayed), via London, March 9.—(1:21 a. m.)—The British steamer Bengrove was seen in distress and sounding her siren five miles off this shore at 1:20 o'clock Sunday afternoon. Forty minutes later the ship's bow rose from the water and she sank by the stern. Thousands of people stood on shore and watched her go down.

Two steamers were in the vicinity, one of which rescued the crew of 33 and local life boats brought them ashore amid the cheers of the populace. The captain of the Bengrove made this statement:

"We had no warning. There was a loud explosion forward which shook everybody on board off their feet and covered them with debris and coal, but nobody was seriously hurt. We took to the boat's quickly and orderly. We watched the ship sink then came ashore through the agency of the Paignton."

SHANAHAN COMPLETES LIST OF HOUSE STANDING COMMITTEES

Speaker Declines to Make Any of His Selections Public Before Complete Slate is Announced.

Springfield, Ill., March 8.—Speaker Shanahan arrived in Springfield this afternoon from his home in Chicago and announced that he had completed his list of standing committees of the house ready to lay before the members when they convene next Wednesday. He declined, however, to make public any of his selections before the complete list is announced. Representatives McCormick, Roderick, Madison and Turnbaugh were in conference with Speaker Shanahan at different times after his arrival but it was said their talks had no bearing on the makeup of the house committees.

Speaker Shanahan expects the house committees to get busy at once and still hopes to get the business of the session disposed of in time for sine die adjournment by May 15th.

USES POISON INSTEAD OF BAKING POWDER; THREE ILL

Danville, Ill., March 8.—Mrs. Grant Davis residing near Fairmont this county, used poison instead of baking powder by mistake in making bread for dinner Sunday. As a result herself, son and Mr. and Mrs. Will Runyan, of Waynetown, Ind., became violently ill. Their lives were saved by prompt work with a stomach pump and today physicians believe all are out of danger.

FOUR CHICAGO ELECTION WORKERS ARE INDICTED

Chicago, March 8.—Testimony that votes in the recent primary had been bought for 25 to 50 cents and in some cases for a breakfast or a night's lodging, resulted today in the indictment of four Democratic workers in the first ward. The men indicted are Dan Evans, Democratic election judge; Emanuel Sommers, precinct challenger and Ben Barnett and John Marshall, precinct workers.

PLACE HARRY THAW ON TRIAL FOR CONSPIRACY

JURY IS COMPLETED—TAKING OF TESTIMONY WILL BEGIN TODAY

Attorneys Plainly Intimate They Will Try to Prove Client Was Sane When He Escaped—If He Is Found Not Guilty Will Sue Out Writ of Habeas Corpus.

New York, Mar. 8.—In same room where he twice faced a jury for the murder of Stanford White, Harry Kendall Thaw today went on trial for conspiring to escape from the state hospital for the criminal insane at Matteawan. With him as co-defendants were five men who, the state charges, were parties to the alleged conspiracy. The entire day was required to complete the jury. Taking of testimony will begin tomorrow morning.

Plainly Intimate Defense.

It was evident the trial would be another fight on the part of Thaw to gain his freedom. His attorneys plainly intimate they would offer evidence designed to prove their client was sane when he escaped from the asylum. Such being the case, they said in examining witnesses, the defendant was being illegally detained at the time of his flight.

They asked prospective jurors whether they would be prejudiced against a man who, providing that he was of sound mind, used any means at his command to escape from a hospital for the insane. These statements were amplified later by John B. Stanfield, Thaw's chief counsel, who said that should the jury find his client not guilty he would immediately sue out a writ of habeas corpus on the ground that his detention was illegal, "because the jury would have established his sanity."

Mr. Stanfield would not say what course he would pursue should Thaw be found guilty of the charge. On the other hand the contention of the state as outlined while an assistant district attorney was questioning witnesses will be that Thaw although insane at the time of his escape was nevertheless competent to enter into a conspiracy and that therefore he should be punished accordingly.

Has Fifty Witnesses Ready.

Deputy Attorney General Kennedy in charge of the prosecution, said that in the event of Thaw being found guilty he would be immediately returned to Matteawan. The state, he said, was prepared if necessary to place fifty witnesses on the stand to prove its case. In obtaining the jury each side used only three of its five allotted peremptory challenges. Thaw assisted his attorneys in selecting the jurors. His co-defendants, however, rarely, if ever offered any suggestions. These co-defendants are Richard J. Butler, formerly state assemblyman; Roger Thompson, alleged to have been the driver of the machine in which Thaw fled; Michael O'Keefe, Eugene Duffy and Thomas Flood.

Thaw Greets Mother.

When the adjournment was taken Thaw was escorted to the sheriff's office. There he greeted his white haired mother. He threw his arms around her and kissed her, then the two held a brief whispered conference. That over, Thaw stepped into a corridor and posed for more than a score of newspaper photographers. Before he returned to his cell in the Tombs he said he was perfectly satisfied with the jury as completed. Thaw appeared to have taken on considerable weight since his return from New Hampshire. His face was ruddy and he seemed to be in good physical condition.

SALOON LICENSE NOT SALABLE.

Kansas City, Mo., Mar. 8.—By a ruling of the board of police commissioners late today a saloon license here becomes a mere permit to operate and not salable, as it has been in the past. The board also declared invalid an ordinance limiting the number of saloons to 616. Under the limited license system saloon licenses here had become so valuable that it was estimated the license equities swept away by the boards' new order amounted from \$900,000 to one and one quarter million dollars.

TRES TO RESUSCITATE BROTHER-IN-LAW; DIES

Rockford, Ill., March 8.—Exhaustion resulting from her efforts to resuscitate her brother-in-law, Gustave Johnson who died suddenly tonight resulted in the death of Mrs. Ida L. Johnson an hour later. Johnson was vice president of the Swedish-American Republican League of Illinois.

WILLIAM NELSON IMPROVES.

Kansas City, Mo., March 8.—A slight improvement which occurred late today in the condition of William Rockhill Nelson, editor of the Kansas City Star was apparent tonight. His physicians, however, announced that the change could not yet be described as a positive change for the better.

WILL PROBABLY TURN LETTERS OVER TO TRADE COMMISSION

Contain Mass of First Hand Information About Plans of Business Corporations.

Washington, Mar. 8.—When the federal trade commission organizes here next week it probably will fall heir to a mass of first hand information about business plans of corporations which involve the question of unfair methods of competition. The information is now in the hands of the department of justice in the form of letters from corporations throughout the country.

Such letters began to reach the department shortly after the trade commission act went into effect and have continued to come in regularly. The writers generally seek to obtain advice as to whether prospective business moves are within the law. In each case the answer has been that the department cannot furnish the desired advice. There is some question also whether the trade commission has authority to give such anticipatory advice, but the letters probably will be turned over to it by Attorney General Gregory.

None of the so-called trust or organizations of big business has been among the letter writers.

TO EXTEND PERSONAL INVITATION TO VICE-PRESIDENT MARSHALL

O'Hara to Ask Him to Preside at First Meeting of Lieutenant-Governors and Presidents of State Senates.

Springfield, Ill., Mar. 8.—Lieut. Governor O'Hara will leave Springfield next Thursday or Friday at the close of the week's senate for Washington to extend to Vice-President Marshall a personal invitation to preside at the first convention of lieutenant governors and presidents of state senates to be held at Rhea Springs, Tenn., in April.

The idea of the convention, was originated with Mr. O'Hara already has been received enthusiastically by the lieutenant governors according to O'Hara's statement. Lieut. Governor Andrew W. Betha of South Carolina in a letter received by Mr. O'Hara today declared he was at work on a similar plan when the announcement of calling of the convention was made by Mr. O'Hara.

COURT REMITS FINE OF \$500 IMPOSED ON FRANK TANNENBAUM

NEW YORK, March 8.—The \$500 fine imposed on Frank Tannenbaum in addition to a year's imprisonment for leading 19 unemployed men into St. Alphonsus' church last year was remitted today by the court of general session. Tannenbaum's prison sentence expires tomorrow.

Judge Wadhams, in remitting the fine, called attention to the fact that money to pay the penalty had been collected from sympathizers among the poor, in sums ranging from five cents up.

"I do not think, he said, 'that the ends of justice now require that the pennies of the poor should be accepted to pay the fine.'"

DEATH ROLL IN LAYLAND MINE DISASTER NOW TOTALS 108

HINTON, W. Va., March 8.—The death toll of the explosion last Tuesday in the Layland mines of the New River & Pocahontas Consolidated Coal company is 108 tonight, following the recovery of thirteen bodies during the day. For the first time in six nights no one entered the mines tonight to search for bodies and survivors. Mining experts do not believe there are more survivors in the workings as all the entries have been examined. Removal of slate and debris is expected to bring the number of victims to 120.

TO WORK OUT A BUDGET SYSTEM

Washington, March 8.—President Wilson is taking active steps to work out a budget system of government expenditures for submission to the next congress. Today he conferred with Representative Sherley, chairman of the special budget committee of the Democratic caucus, which will begin framing a program in October. Meanwhile the cabinet will work on plans of coordinating finances of the various departments.

POUND WAY NEARER TURKISH CAPITAL

Allied Fleet Silences More
Forts on Asiatic Side
of Dardanelles

HIT MANY WARSHIPS

Shells from German Made Guns
of Turks Find More Than One
Mark on Besieging Craft

EXCITEMENT IN GREECE

LONDON, March 8.—(10:55 p. m.)—The British and French fleets have battered their way a step nearer to Constantinople, not, however, without damage to the ships engaged and the battle royal for the Dardanelles continues. More Turkish forts on the Asiatic side have been silenced, according to a statement by the British admiralty, but the Turks are making a terrific resistance and the shells from their German made guns have found more than one mark on the besieging craft.

Resignation Causes Excitement.

This struggle for the gateway of the Ottoman capital is at present the big feature of the war news and closely linked with this is the sustained excitement in Greece incident to the resignation of the cabinet of M. Venizelos, who, deeming Greece's entry into the hostilities on the side of the triple entente imperative, could not agree with his king and resigned. The retiring premier, according to Athens dispatches, plans to leave for a rest.

From the number of ships engaged and the size and range of the guns the battle of the Dardanelles is unlike anything in history, according to naval experts. At 21,000 yards the huge battleship Queen Elizabeth of the British squadron, assisted by smaller ships, is still hurling shells across the Gallipoli peninsula into the Turkish strongholds on the Asiatic shore. The admiralty statement carries the operations through Sunday and admits that the Turks not only scored three minor hits on the Queen Elizabeth, but that the majority of the ships inside the straits, both French and British, were struck. None were sunk and there were no casualties. The Turkish forts Rumili Medjidieh Tabla and Hamidieh 1 Tabla fringing the Asiatic shore line which previously had withstood the bombardment were silenced, as was the Mount Dardanus battery further south.

Turkish Casualties Unknown.

The Turkish casualties are unknown. A Turkish official statement from Constantinople, issued prior to the admiralty statement this evening, insisted that the fighting in the Dardanelles was developing in favor of the Turks. It was stated that no batteries were being destroyed and that the hostile ships were forced to retreat.

Aeroplanes, taking wing from the decks of the besieging craft, are playing a notable part in the operations. One British machine became unmanageable and dove into the sea and another was hit by the Turks twenty-eight times.

An air raid by British fliers on the German submarine base at Ostend, Belgium, was announced by the admiralty tonight. Six machines participated and returned safely. What damage was inflicted, if any, is not known.

One of the most picturesque bits of the day's news is a report from Bucharest, Roumania, stating that former Sultan Abdul Hamid of Turkey has regained his freedom and is gathering his friends and supporters around him. It is asserted that he may seek to play an important part in his country's affairs.

More progress by the British fleet before Smyrna by which Turkish batteries were silenced, is announced in an admiralty statement. Another official statement says that the Turks lost in the land fighting at the head of the Persian gulf is fifty per cent larger than previously reported.

OWNS SMALLEST HOMESTEAD.

Washington, March 8.—Serena Helen Blue has the distinction of owning the smallest homestead in the United States. Moreover, it only cost ten cents. It is eight hundredths of an acre in area and is a little triangular bit of land, 189 feet long and 38 feet wide at its broadest point jutting into Turtle Lake, Minn.

SPECULATING ON THE VOTE.

Monday was an active day among the candidates and while they spent a good deal of time in soliciting votes, they also necessarily spent some time in dodging "moochers." Although the day of the "moocher" is supposed to be past since the adoption of the commission form of government and the advent of woman into politics, it is nevertheless true that the tribe is not extinct, and various specimens were occupied much of the day Monday in the pursuit of candidates.

There was a good deal of speculation as to how many votes would be required to land a man among the favored eight candidates for commissioner. Four years ago the man receiving the lowest number of votes who was nominated had 420 to his credit. This year, because women have the right to vote, the number casting ballots is expected to be twice as large as four years ago, and in making calculations there is the added fact that there were forty-four candidates for commissioner in 1910 while the number this year is twenty-seven.

This difference in the number of candidates makes the matter of estimating a little difficult, but the most commonly accepted figures are that the necessary number will be from 1,000 to 1,200. One old time politician puts his figures considerably below this standard and believes that a man who gets 750 will be in the charmed circle of eight.

It is very evident from the difference of figures that the politicians vary in their estimates of the total vote. Generally speaking, in a primary election if seventy per cent of the men registered vote it is considered a large showing, and the same rule should hold true with reference to women. Opinions vary greatly in guessing on the total women's vote today. There are nearly 4,500 women registered, and some men believe that not more than one-half of them will vote today, while the general estimate places the figure at 3,000 to 3,500.

ADVERTISING TRUTH.

"Buy the car that doesn't advertise. It's cheaper. You save all the money that they don't spend on advertising."

This mossbacked bit of economies still floats through brains that do not analyze things very closely. About as telling a destruction of it as we have seen for some years appears in the Strand Magazine in reply to the question, "Who pays the cost of advertising?" The editor quotes from the reminiscences of the late James J. Barratt these words:

"Here is the real truth of the matter. Money wisely spent in advertising increases sales and profits to such an extent that sufficient capital is provided for the operation of economies naturally resulting from buying and manufacturing in larger quantities. The bigger the volume of trade the cheaper is the relative production."

"In fact, as all leading advertisers know, production is cheapened in a much greater degree by advertising than is represented by the money spent in advertising. Were it otherwise, there would be no use in advertising."

"Much as we advertisers love the newspapers, to whose revenues we contribute so handsomely, we only perform this service because we get more out of the publicity they give us than they get out of us—with occasional exceptions, perhaps, which are soon rectified."

This is a self-proving proposition to anyone who stops to think it over. If it wasn't, why on earth would business men advertise? No sane human being would go on endlessly paying out money for the privilege of attempting to pull himself up by his own bootstraps.—Chicago Post.

THE SETTLE UP IDEA.

The suburb of Oak Park will tomorrow vote, through the Oak Park Commercial Association, on the proposition to hold a "settle up week" in the near future, during which time old debts will be squared by business men, storekeepers and their patrons. The idea is to eliminate debt from Oak Park, following the success of a similar venture at Waukon, Iowa. It is expected that the vote will be favorable and that the "settle up week" will be placed in April. The merchants at Waukon reported that more than 2,000 old bills were paid during the "settle up week" there.

This is certainly a great idea and if it could be practiced in a widespread way would do more toward reducing the "high cost of living" than any other one thing. Credit is an expensive thing and in the final analysis the merchant who does an extensive credit business must make enough profit to cover this expense. The longer the average business man lives too, the more he

believes that the desire and effort people have toward the payment of their honest debts is the first essential of righteousness. The plus ones who pray much and pay little are much in disfavor.

AN IDEAL COUNTRY SCHOOL.

High ideals in sanitary requirements for rural schools are proposed in a bulletin that is distributed through the United States Bureau of Education. The bulletin comes from the Joint Committee on Health Problems in Education, composed of members of the National Education Association.

The general ideal proposed is that "the country school should be as sanitary and wholesome in essential particulars as the best home in the community."

"The school should be located in a healthful place," declares the committee. "Noise should be eliminated; children should not be obliged to walk farther than two miles or ride more than six; playgrounds should be ample and well drained; and the school ground should include a real garden or experimental farm, with trees and plants grouped artistically."

The schoolhouse, according to the bulletin, should be as nearly fireproof as possible. Doors should open outward. A small room for consultations and emergency purposes, and one for workshop, instruction in cooking and preparing refreshments, should be provided.

In the matter of ventilation and heating, the bulletin gives specific suggestions. "Fresh air should be provided through window board ventilators except where the furnace or jacketed stove is used in which case adequate inlets and outlets should be provided. Every school should have a thermometer and temperature in cold weather should be between 64 degrees and 68 degrees Fahrenheit."

Light should be abundant. "The best arrangement," says the bulletin, "is to have the light come only from the left side of the pupil and from the long wall of the classroom. The schoolroom should receive direct sunlight sometime during the day, but the main windows should not face directly south. East or west facing is desirable. In providing shades for windows dark ones should be used at the top of windows to control light on bright days."

"There should be no dry sweeping or dusting," says the committee. "Floors and furniture should be cleaned with damp sweepers and oily cloths. Scrubbing, sunning, and airing are better than any form of fumigation."

The common drinking cup should be tolerated. Care should be taken that drinking water always comes from a safe source; drinking fountains, located just inside or outside the schoolhouse, with sufficient pressure for running water, should be provided.

The "water for washing" should be utilized always after using the toilet and before eating seems little enough to ask, but many schools are found to be lacking in this respect."

The bulletin speaks at length upon sanitary toilets. If there is no water system, separate closets for boys and girls should be at least 50 feet from the schoolhouse in different directions.

Copies of the full set of requirements may be had free by writing to the Commissioner of Education, Washington, D. C. County superintendents of schools and county boards of education may obtain a sufficient number to supply all their teachers and school committees.

The lighted streets now have meant safety for the women. The light plant was developed under the direction of J. F. Brennan. A vote for him today will show your approval. (Adv.)

New York—Miss Clara Grant, principal of the Devon Road School of London, who has been inspecting American schools, will sail the last of this month for home. She says that the school buildings are better in America than in England, and are much more hygienic. But she thinks the English schools have more initiative than those in America.

COMPLETE ROSTER OF ALTON ENGINEMEN

SEVERAL HAVE BEEN IN EMPLOY OF COMPANY MANY YEARS.

A complete roster of all trains and engine-men of the Chicago and Alton has been put in a blue print and distributed in the round house of all terminals of the railroad. A glance at the chart will show just how many years each man has worked. The oldest man is James Boynton of Chicago who has been in the employ of the company in Chicago for over 50 years.

The roster follows:
Oldest engineman, James Boynton, Chicago, 1864; senior road runner, Addison Barker, 1872.

The next four oldest runners and the date of their employment, are Blundy Butler, 1878; R. Robinson, 1877; Sid Webster, 1881; and Chas. Trimble, 1882.

The oldest switch engineer in Chicago, next to Boynton, is J. H. Hendershott, who has been running an engine there since 1882.

The senior switch engineer at Bloomington is Robert Barniville, promoted in 1882. Ben Woodard is the next oldest here. The oldest section engineer is J. J. J. Van Horn, promoted in 1893. The oldest switch engineer at Springfield is Frank McLean, promoted in 1900. The oldest at Venice is T. J. Hayes, promoted in 1880.

The senior fireman in road service is Frank Werscheid, employed in 1894. The next four oldest firemen are C. H. Honness, Will Dulag, C. Chapp and C. Broughton. The oldest yard fireman is John Forrester of Bloomington, who has been firing since 1902, after many years' service previous as an engineer.

The senior passenger conductor is A. B. Corey of the Alton Limited, who has been running a train since 1891. The next in seniority is J. C. Foley, 1892. The next three are Frank Fox, J. C. Boyd and E. H. Junod, all of 1894. The senior southern division freight conductors are W. Fitzpatrick, 1896; T. F. Shuman, R. H. Filson, C. L. Burford and W. R. Dillon. The senior freight brakemen are G. Lawler, 1900; W. Kinsey, 1904; R. S. Foster, 1906; T. A. Chapman, 1909; and C. E. Collins, 1909. The senior passenger flagmen are H. K. Jones, 1892; J. H. Savage, 1899; C. W. Kleckman, 1899; and J. Ellis, 1899. The senior northern division freight conductors are the following: J. H. Weiting, 1894; E. C. Roberts, 1900; J. H. Davidson, 1901; J. Conery, 1901, and W. E. Bailey, 1902. The senior baggage-men are C. B. Wasson, 1884; C. T. Stevens, 1885; L. J. Sutton, 1887; A. A. Taylor, 1904.

Order Track Elevations.
The state public utilities commission issued an order yesterday ordering the elevation of the tracks of the Pittsburg, Cincinnati, Chicago & St. Louis railway company and the Baltimore & Ohio Chicago Terminal railway company at Marquette road, Sixty-seventh street, Chicago and at Garfield avenue, Fifty-fifth street, Chicago and the tracks of the Englewood Connecting railway company, according to the ordinance passed by the Chicago City council, April 12, 1912, with some modification of the plans of the South Park commissioners.

In each case the utilities commission orders that other shall be a vertical clearance of 13 feet and 6 inches at the center of the driveway, allowing no depression of the grade of the present surface of the boulevard at Garfield avenue with not more than two rows of supporting columns beneath the structure carrying the railroad tracks.

WOMEN IN THE NEWS.

Dubuque, Ia.—Iowa women have taken up the study of the rights and duties of citizenship, preparing women for the vote. Mrs. E. R. Carroll of Chicago and Mrs. Grace Donnell of Boston are organizing the courses and the movement is spreading into all sections of the state.

Chicago.—Illinois has 4164 nurses who passed all the strict requirements of the State Board of Nurse Examiners, of which Miss Adelaide Walsh of Chicago is chairman. There are 195 schools turning out trained nurses in the state at the rate of 600 a year.

Milwaukee, Wis.—The working girls' home in Milwaukee are severely criticized in the report of a legislative investigation committee, which points out that there is an economic danger in offering accommodations at cheap prices, by creating the impression that it is possible generally to live at this low cost. The report states that this offers one more excuse for the payment of low wages.

Washington.—According to Mrs. Antoinette Funk of Chicago, who is here in the interests of suffrage, the defeat of Mayor Harrison of Chicago at the hands of the new women voters of that city is attributed to his holding up the pay of the Chicago school teachers a few years ago. And this despite the fact that Mayor Harrison had espoused the suffrage cause. But, Mrs. Funk continues, the women seized the first opportunity to register their judgment on his past actions.

New York.—Schools for "watchers" will be opened here next week, to prepare women for the task of watching events at the election booths of the state. Experienced men have been selected to conduct the courses. There will be enough women educated in this new duty to cover more than 1,000 polling places with a small army of substitutes. The suffragists have decided to play politics as it is now played by men, and will watch for repeaters and "ringers."

I will furnish one plant in each town, one on 30 days free trial to prove my claims, and I will furnish one of my plants in each county, on 30 days free trial to prove it. The mush fed cattle the best hog feed. A little soda is good for all classes of stock; helps them digest their feed. I ask all cattle feeders and horse feeders to try one.

2 gallons of corn with the cob in it cooked will make all any steer can eat, and gain 3 1/2 to 4 pounds per day, if clover is fed with it in dry lots.

METHODIST CONFERENCE BEGAN AT CENTENARY CHURCH

Annual Gathering of Ministers of the Jacksonville District—Bishop McDowell Heard in Eloquent Address.

The Jacksonville conference convened yesterday afternoon in Centenary church and the event brought together a notable body of ministers and some laymen. District Superintendent F. A. McCarty was chosen president and in the absence of the regular secretary, Rev. C. L. Bell of Palmyra, detained by illness, Rev. J. S. Smith of Waverly acted as secretary pro tem. The program as published was practically carried out except that Bishop McDowell spoke on the church and her obligations.

The Banquet.

At 6:30 the brethren gathered in the assembly of the church and enjoyed a fine supper prepared by the good ladies of the church and of course the feast was excellent. Waiters were ready to supply the wants of all and at the end of the feast Rev. Preston Wood and Dr. Bovard, secretary of the Methodist Brotherhood, made bright and interesting speeches.

Evening.

Adjourning up stairs a time was spent in devotional exercises and then some fine music was enjoyed with Miss Larrimore at the organ and a trio consisting of Miss Clara Ranson and Messrs. Thos. Rapp and Albert Metcalf, who sang with great acceptance. Supt. McCarty made some announcements and then Rev. G. W. Flagg took the chair and after a collection had been taken he introduced Bishop McDowell who delivered a fine address full of eloquence and instruction.

Bishop McDowell's Address.

He said in brief: When Bro. McCarty asked me what would be my subject I told him about everything under heaven. I do not wish you to lose sight of some important facts.

One—We must report 100,000 new members by the next conference.

Two—We must remember the campaign of Illinois Wesleyan University which is within something like \$50,000 of the goal and must have it by June first.

Third—We must remember the campaign of the Illinois Woman's college for \$100,000 by Jan. 1st; another \$100,000 for some new clothes and another \$100,000 because we are so proud of it.

Fourth—We must begin to get our ideas in shape for the movement to secure a fund for retired ministers.

"It is a great thing to be a Methodist and to have a part in these campaigns but it is a greater thing to be a member of the great church of Christ. The Master is interested in many great things and people of short breath will have hard work to keep up. It is a serious thing to be a Christian. A young lady came running into the room of her aunt who was an unappreciated blessing and announced her recent engagement, and the aunt replied it was a serious thing to be engaged but the young lady replied it was more serious not to be engaged.

"To accomplish the 100,000 increase in our membership we need at least 1500 from the Jacksonville district in order to make up for some of the weaker ones though of course I don't mean Springfield. I want to ask where you live and from your answer I will decide what kind of a person you are. If you say in Jacksonville I shall form one kind of an opinion; if you say Illinois I shall form another; if you say the Mississippi Valley I shall have another idea; if you say the United States I shall have another opinion; if you say the world I shall have another and if you say the great universe of God then I shall know that your soul is large and your ideas noble.

"A great and good man once said he needed two worlds in which to breathe and get about and anything less would be suffocation. If I ask you to what church you belong I shall draw my conclusions from your answer. If you say you belong to Grace church I shall be glad; if you say the Illinois conference, good; if the Methodist church of the world, still better; if you say the church triumphant of the universe of God then I shall know you have joined fellowship with those who have test on earth and are about the great white throne. It is a fine thing to belong to the great Methodist Episcopal church but a greater thing to belong to the membership of the children of God in Christ.

"It is a desperate thing to be a

Little Methodist when you should be a large one. The small Methodist is willing the world should be saved if it is done by the Methodist church. The great Methodist is willing the world should be saved by any means that is right and brings in the redemption of mankind.

"Our church should be a denominational one but it should co-operate in all things and all members should work harmoniously.

"My father once wanted to buy a horse and he advertised for one; a very dangerous thing to do for it brings one in contact with so many honest horsemen and it is hard to get up against such an aggregation of honesty, but he bought a horse warranted to work single, double, on either side or under the saddle and he did. Now I have known some Methodists, let's see; I guess I was talking about horses; I have known some who wouldn't work except at the head of a committee. I have known Methodists, no horses, I do get these things mixed, who were very good when in the lead but not elsewhere.

"We should all work in the harness and in any capacity in which we are most useful. No one denomination can save the world. I want to see all work together. I want the help of the Roman Catholic for good in the world. A mighty struggle is on and we shall not win without a fight. We are too complacent and well satisfied.

"What ideas do you carry in your mind? The mind is worn out by the contemplation of many little things. Do you think of a better Jacksonville with all manner of improvements and a moral people? Are you thinking of the awful war and the crime of it? Are you thinking of the troubles in the world and what will cure them? Those who think on large things are offering themselves to God ready to be used for His glory.

"I care for Illinois Wesleyan; I care for the Illinois Woman's College; I care for the cause of the ministers' relief all because their lines go out into all the world.

"Let us join hands in the great and mighty work before us; let us labor and pray for the salvation of souls and let us so labor, so love, so pray that all we do and all we say will mean the advancement of the kingdom of Christ."

A fervent prayer by Rev. F. A. McCarty and the benediction ended the exercises.

The city started pumping from the Widenham & Daub wells with power from the city plant June 8, 1914. Wasn't that a good money saving plan? Vote today for J. F. Brennan. (Adv.)

WINCHESTER

Funeral of Miss Ruark.

The funeral of Miss Daisy Ruark was held Sunday at two o'clock from the Winchester M. E. church in charge of the pastor, the Rev. C. W. Casely. With fitting words of tribute the minister spoke of the beautiful life of Miss Ruark, of her Christian character and service for the church. The many floral offerings bore her memory tribute as did the presence in the church of the large concourse of friends. Miss Ruark was born May 26, 1874 and since 1886 has been a devout member of the church and a worker in the Sunday school.

Music was furnished by the choir and a duet was given by S. G. Smith and Miss Grace Thompson. The bearers were Charles Burdick, Harry Martin, Ray Nelson, Gary Paul, Charles Banes and William Kuechler. Members of Miss Ruark's Sunday school class as follows served as flower girls and honorary bearers: Misses Lois Coultas, Rhea Richardson, June Coultas, Louise Sperry, Caroline Coultas, Vivian Brengle, Lucille North, Mary Coultas, Addie Tankersley, Mary Patrick, Mary Friend, Bessie Coultas, Ortha Knapp and Elsie Edmundson and Mrs. William Kirkpatrick.

Michael Cleary of Jacksonville spent Sunday with the family of Chares Hieronymous. Mrs. Cleary, who for several days had been making a visit with her parents, accompanied him home.

Mrs. Alonzo Ellis and son, Myron, came up from White Hall Sunday for a visit with relatives, returning Monday afternoon.

Miss Catherine Wainwright of Aiton spent Saturday and Sunday with her parents, Mr. and Mrs. William Wainwright.

Miss Frances Wallace has resumed her teaching duties after being kept at home several days by illness.

Miss Lois Coultas has returned to Jacksonville to take up her studies in the Woman's college after attending the funeral of Miss Daisy Ruark.

LARGE AUDIENCE PRESENT AT GRACE CHURCH MONDAY NIGHT

Revival is Growing in Power and Influence—Sunday Services Proved Fruitful.

Sunday was a fine day in the revival services at Grace M. E. church, splendid audiences being in attendance. Unusual interest was manifested in the Sunday school, nearly 400 were in attendance. It was the first day of the contest in attendance. Decision day was observed by a part of the Sunday school. During the day 17 united with the church, making a total of 21 accessions to the church since the meetings began. The singing of the Madrigal club was greatly enjoyed, the young ladies greatly assisted in the gospel song service. Rev. Mr. Powers spoke to both men and women at the afternoon services. Two men professed conversion at the men's meetings. At night a very impressive sermon on "The Future State of the Soul" held the attention of the large audience and as a result several were forward. It was a sermon that will linger in the minds of those who heard it, and the results will be gathered all during the meetings.

Rev. Mr. Powers is winning the hearts of the people by his strong kindly sermons, that urge the great truths of the Gospel fearlessly and yet in a brotherly spirit. The theme of last night was "The Threefold Message of the Gospel." The service was introduced by a spirited testimony service which was enthusiastic and hopeful of still greater results this week.

Information from the workers is coming that many are earnestly considering the Christian life and will yet decide for Christ. The outlook for the week is very encouraging. Friday night is to be Sunday school night. The parents of the children as well as the teachers are urged to attend the meetings and especially the Friday night meeting. The teachers will take luncheon together at 6 p. m. Wednesday night to plan for greater success in the Sunday school. A short session of the Quarterly Conference will be held Tuesday evening for some important business. The official members are urged to attend and to be present promptly at 7:00 p. m.

Cut Out Coupon Below—Worth
Twenty-Five Cents to You

Good, at Druggists Below, as long as the Free Supply lasts, for One 25-Cent Package of the New "External" Treatment That Relieves Colds Over Night—Croup in Fifteen Minutes.

Vick's "Vap-O-Rub" Salve, the new treatment recently introduced here from North Carolina, relieves croup and cold troubles by external application. There is no need to dose the stomach with injurious medicines.

Its use is especially recommended to mothers with small children, as Vick's can be used freely and often without disturbing the delicate stomachs of the little folks. Plenty of fresh air in the bedroom and a little Vick's applied at the first sign of trouble will insure the children against croup and pneumonia and keep them free from head and chest colds, sore throat, etc. Vick's is absolutely harmless—formula on every wrapper.

For all inflammations of the air passages, bronchitis, tonsillitis, catarrh, hoarseness, difficult breathing, etc., this new treatment will be found remarkably effective.

Applied externally over the throat and chest the heat of the body releases soothing antiseptic vapors, that are inhaled with each breath. At the same time Vick's is absorbed through the skin, taking out the soreness and tightness. In very severe cases the pores of the skin are first opened by applications of hot wet towels. Then Vick's is rubbed in well and covered with a warm flannel cloth. The covering around the neck is kept loose so that the vapor arising may be freely inhaled.

No one understands the value of an "external" treatment better than the skilled druggist, and a number of Jacksonville druggists have made arrangements to give away 25-cent packages free to their customers upon receipt of the coupon below. The free supply with each dealer is limited, but if you come too late for a free package you can purchase a 25c. 50c. or \$1.00 jar on 30 days' trial. With each purchase you will be given a "refund blank" filled out by the druggist. If you do not find this new treatment the best thing you have ever tried, return this blank to your dealer and he will promptly refund you your money.

Among the druggists who are giving away free packages and also offering Vick's on 30 days' trial are: City Drug Store, and Cover & Shreve.

MAY TRY CREWS OF GERMAN SUBMARINES FOR MURDER

British Admiralty Explains Policy Adopted Toward Captured Crews—Ruling Applies to Men of the U.S.

London, March 8.—(10:01 p. m.)—The admiralty announces that it is not justified in extending honors to the captured crews of German submarine boats, owing to their methods and that it is intended to segregate them under special restrictions, pending their possible conviction at the conclusion of peace. The admiralty states that this ruling applies to the twenty-nine officers and men of German submarine U-8, which was sunk recently off Dover.

Answer to Demand of Admiralty.
The policy to be adopted toward the crews of German submarines is in answer to the demand of Admiral Lord Charles Reresford, retired, and others that such men be tried for murder and the admiralty statement indicates that the government has this in mind. The statement refers to the generous treatment accorded German officers and men saved, numbering upward of 1,000 and then says with reference to the U-8: "This vessel had been operating in the Straits of Dover and in the English channel and there is a strong probability that she had been guilty of attacking and sinking unarmed merchantment and firing torpedoes at ships carrying non-combatants, neutrals and women. In particular the Steamer Oriole is missing and there is grave reason to fear that she has been sunk with all hands—twenty."

"There is, of course, great difficulty in bringing home particular crimes to any individual German submarine, and it may be that the evidence necessary to establish conviction will not be obtained until after the conclusion of peace."

Subject to Special Restriction.
"Meantime persons against whom such charges are pending must be subject to a special restriction and cannot be accorded the distinction of their rank or be allowed to mingle with other prisoners of war."

A report received from Rear Admiral Hon. Horace Hood on the sinking of U-8, as made public by the admiralty, shows that the submarine was finally destroyed by the torpedo boat destroyers Guerka and Mario.

CLUB NOTICE.

The Mound Woman's Country club will meet with Mrs. Isala Strawn next Friday afternoon at two o'clock. Guests from town will please take the car leaving the square at 1:30. The carry-all will meet this car at the corner of West State street and Webster avenue.

Mr. F. G. Blair of Springfield, state superintendent of schools will speak on "The School and the Home."

DISCUSSES ABILITY OF ROADS TO PAY.

Chicago, March 8.—"Ability of the railroads to pay," occupied today's session of the board of arbitration in the western railroad wage arbitration.

E. J. Lauck, a statistician employed by the engineers and firemen who are seeking higher wages of the western railroads involved analyzed reports of the railroads since 1900 and drew the conclusion that abundant returns had been paid on investments and saved for improvements, but still leaving surplus from which wage advances might be paid without affecting returns to stock holders.

MEDICAL CLUB MEETING POSTPONED

The bi-monthly meeting of the Jacksonville Medical club which was scheduled to meet in regular session in the office of Dr. T. O. Hardesty was postponed to the next regular meeting night. The change was made because members were at Passavant hospital to witness the working of some new apparatus which was recently purchased and installed at that place, and which was shown and explained by a demonstrator who came to Jacksonville for that purpose.

CARD OF THANKS.

We wish to express our sincere appreciation to many friends for kindness shown and sympathy expressed during the illness and after the death of Mrs. W. C. Patterson. The kindness will never be forgotten. We are especially grateful to the singers at the funeral.

EVERY MEMBER CANVASS AT STATE STREET CHURCH

A satisfactory afternoon's work is reported by the twenty men of State street church who Sunday visited each member of the congregation and secured pledges for the year ensuing. An every member canvass is held each year before the annual meeting two or three weeks. The men made the canvass in twos and planned their route in such a way that no canvasser visited the same families as last year. The Rev. H. D. French and C. A. Johnson were at the church to receive the reports.

SNOW IN NEBRASKA.

Asa M. Robinson of North Main street is in receipt of a letter from William Effe, who recently removed from Jacksonville to McCook, Neb. The letter bears the date of March 5 and describes the heaviest snow recorded for that section of the state in years. It had been snowing for a week, Mr. Effe said, and had then reached a depth of 18 inches.

Miss Rebecca Schelbel of the Conservatory of Music has organized a class of students at Mt. Sterling for instruction in vocal music, and will visit them each week.

EUROPEAN WAR NOTES

London, March 8.—(8:55 p. m.)—In a statement issued this evening regarding the recent fighting between British troops and Turkish forces at the head of the Persian gulf, the official press bureau said:

"The enemy's losses near Ahwaz (in Khuzistan) on March 3rd, were heavier than previously reported. Six hundred were killed and many were wounded."

"In the action on the western flank the enemy lost three hundred men killed."

London, March 8.—(7 p. m.)—A despatch from Amsterdam to the Exchange Telegraph company says that according to Vienna telegrams Count Stephan Tisza, the Hungarian premier, will soon be appointed Austro-Hungarian foreign secretary. The despatches further add that the count will be given the title of imperial chancellor and will be vested with powers similar to those held by the German imperial chancellor.

London, March 8.—(10 p. m.)—The admiralty tonight issued the following statement:

"Wing Commander Longmore reports that an air attack on Ostend was carried out yesterday afternoon by six aeroplanes of the naval wing. Of these two had to return owing to their petrol freezing. The remainder reached Ostend and dropped eleven bombs on the submarine repair base and four bombs on the Kursaal, the headquarters of the military."

"All the machines and pilots returned. It is probable that considerable damage was done. No submarines were seen in the basin. The attack was carried out in a fresh north-northwest wind."

London, March 8.—(7:40 p. m.)—Austrian prisoners from East Galicia and Bukowina are pouring into Kiev, says a despatch from that Russian town to Reuter's Telegram company, 8,000 arriving there yesterday. The members of one Austrian company when captured are reported to have said that they have been without food for a week. Many of the prisoners were so famished according to the despatch that they were unable to resist and with the arrival of Russian provisions hundreds of the Austrians sat eating, indifferent to all danger.

Washington, March 8.—Some idea of the size of the auxiliary fleet Great Britain is using to move and sustain her armies in the field may be gained from a report on shipping conditions from American Consul Lathrop at Cardiff, Wales. Fifteen hundred British vessels he reports, aggregating more than 3,500,000 tons have been taken over by the British admiralty on time charters, the government taking all responsibility and agreeing to return the vessels as received.

PURCHASE AND SALE OF ILLINOIS COALS ON SPECIFICATION.
In response to the growing demand for information concerning the composition and properties of Illinois coal, a report on the purchase and sale of coal on the heat unit basis has been issued by the State Geological Survey as Bulletin 29.

The author, Mr. S. W. Parr, reviews some of the work published by the Illinois Coal Mining Investigations as well as extensive experience in the purchase of coal by the State Board of Administration. The report contains detailed descriptions of modern sampling and analytical methods together with a direct application of the results to the purchase and sale of Illinois coal.

The report covers 80 pages and is illustrated by 10 figures and one plate. It can be had on request and payment of postal charges, 4 cents. Address all communications to Director, State Geological Survey, Urbana, Ill.

STORY BY MISS HINRICHSSEN IN THE SUNDAY MAGAZINE

In the Sunday magazine of the Chicago Herald Sunday there appeared a story by Miss Annie Hinrichsen entitled "The King's Test." This magazine is circulated in a number of the largest Sunday newspapers of the United States and is published by a syndicate which numbers among its contributors some of the country's best writers. To be on the staff of the Sunday magazine is a mark of considerable literary merit.

MOTHER OF MINISTER DIES IN BLOOMINGTON

At the close of his sermon Sunday night at the Litchberry Christian church, the Rev. C. G. Cantrall was handed a telegram telling of the death of his mother in Bloomington. Mrs. Cantrall had been seriously ill for several days and her passing was not unexpected. Rev. Mr. Cantrall left for Bloomington Monday morning.

SELF-RELIANT HOME DOCTORS

Is what women are called who all over this broad land make their annual collections of roots and herbs, and rely upon recipes which our pioneer mothers found dependable for different family ailments. In one of these recipes, Lydia E. Pinkham's Vegetable Compound had its origin, and so successful has it proved that there is hardly a city, town or hamlet in America where some woman who has been restored to health by its use does not reside.—Advertisement.

AFTER THE WAR

When the war is o'er, with its wealth of gore—the worst that the world e'er knew, when the throbbing drum and the file are dumb, eh, what will the damsels do? They may watch and wait by the garden gate as they watched in the days of yore, but the strong young men will return again to twilight tryst no more. War's shadow falls on the huts and halls, and through it the old men grope; but the darker shade's for the widowed maids who mourn o'er the wreck of hope. It is theirs to moan and to walk alone a desolate path and sere, and the whisper, 'neath the swaying boughs are things of the yesteryear. 'When the tale is told the infirm and old may weep for their strong young men; "and it's well," they'll sigh, "that we soon shall die, and be with our sons again." But the widowed maids in the darker shades no comfort like that can win; through the years they'll wait for the jasper gate to open and let them in.

REPORTS THEFT.

Dr. J. M. Wolfe reported to the police department yesterday that 900 tablets of morphine were stolen from his office during the noon hour. The doctor told Chief Davis that he did not suspect anyone in particular, but that several "tourists" during recent days had made application to him for the drug.

Mrs. A. Hodgson and daughter Miss Garnet, were representatives of Sinclair precinct in the city yesterday.

NERVOUS DYSPEPSIA, OR GAS OR INDIGESTION

"Pape's Diapepsin" Settles Sour Upset Stomachs in Five Minutes. Time it! Pape's Diapepsin will digest anything you eat and overcome a sour, gassy or out-of-order stomach surely within five minutes. If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion. Get from your pharmacist a fifty-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour rising, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors. Pape's Diapepsin is a certain cure for out of order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there. Relief in five minutes from all stomach misery is waiting for you at any drug store. These large fifty-cent cases contain enough "Pape's Diapepsin" to keep the entire family free from stomach disorders and indigestion for many months. It belongs in your home.—Advertisement.

TERRE HAUTE OFFICIALS NOW TO STAND TRIAL

Conspiracy Charges Against Prominent Men to Have Court Airings.

Indianapolis, Ind., Mar. 8.—Trial is set for today of the 126 politicians, including many city officials of Terre Haute, indicted by the United States District Grand Jury last December, charged with election frauds in the election held last November. Judge A. B. Anderson, who has overruled demurrers filed by 27 of the defendants, will hear the case. The charge is conspiracy to corrupt the election of November 3. Many of the defendants have confessed, 115 have been arrested, and 31 have entered pleas of not guilty. Among the latter are Donn M. Roberts, mayor of Terre Haute; Eli H. Redman, judge of the Vigo County Court; city judge, Harry S. Thomas Smith; president of the Board of Works, Elmer E. Talbot; city controller, George Ehrenhardt; member of the Board of Works, John Masselink, inspector of seals and measures; Edward Driscoll, of the city engineer's office, and Hilton Redman, attorney, son of Judge Redman.

The defendants will be represented by Congressman A. O. Stanley of Kentucky; former Judge Frank S. Reby, Finley P. Mount and Clarence S. Nichols. Frank C. Dailey, United States District Attorney, will handle the prosecution. It is said that 400 witnesses will be called by the government, and that the case will not be completed until May.

Following this trial will come the trial of the five Republicans, one of whom was a Congressional candidate, will be tried on separate charges of conspiracy which are intertwined with the alleged conspiracy of the Democrats now facing trial. The five Republicans appeared in court on Feb. 25 and pleaded not guilty.

CHARGED WITH FOX

RANCH SWINDLE.
Peston, Mass., Mar. 8.—Charles E. Walker of the New England Insurance Co., now in the hands of receivers, will be brought to trial today on the charge of stealing \$30,000 from the company. Walker was treasurer also of the Colonial Fur Ranching Co., which has many small investors who gave up their savings for stock, believing that the fox ranch industry would produce big profits. The fur company operated a fox ranch in Prince Edward Island, where, it had been reported, tremendous fortunes had been made in breeding rare foxes. A committee of stockholders is investigating Walker's affairs.

WIFE IS PRINCIPAL WITNESS.

Lafayette, Ind., Mar. 8.—Ora C. Glass of Marshall county will be called for trial today, charged with the murder of his child. The murder is one of the most pitiable ever known in this section for at the arraignment of Glass last month, his wife testified that Glass compelled her to stand beside and watch him while he strangled the child by forcing a handkerchief down its throat, at the same time threatening her with death if she divulged his act. Glass is a nervous wreck, and has collapsed in jail.

KITTY LEAGUE ADDS HERRIN AND MURPHYSBORO TO CIRCUIT

PADUCAH, Ky., March 8.—The Kentucky, Illinois and Tennessee baseball league composed of Paducah, Henderson and Owensboro, Ky., and Cairo, Illinois, added Murphysboro and Herrin, Ill., to its circuit of cities at the annual meeting of the board of directors held at Princeton, Ky., Sunday, according to special telegrams reaching here today. Two additional clubs will be selected from Marion, Mount Carmel and Harrisburg, Ill., and Fulton, Ky., to which invitations to enter the league were extended.

Dr. N. W. Cox of Cairo was elected president and secretary. It was decided to open the season May 4th, with a tentative schedule of 126 games, the schedule being contingent upon the league's expansion to eight clubs.

A VALUABLE INSTRUMENT

FOR PASSAVANT HOSPITAL

Last week Passavant hospital purchased one of the most up-to-date anesthetizing apparatuses now on the market and Dr. T. J. Rowland of Cleveland, Ohio, was sent here to install the apparatus and has spent three or four days in the city showing the physicians the details of its use. The apparatus is a thoroughly scientific method of administering a variety of anesthetics. The patient can be given as little or as much as occasion requires and the amount used is always known and under control. With this apparatus nitrous oxide gas can be given alone or with any desired mixture of oxygen, ether can be given alone or with any desired mixture of oxygen, or nitrous oxide, oxygen, or ether can be used in any desired proportion. The oxygen is always at hand to be used in combination or in any emergency. Nitrous oxide gas is beginning to be used in some of the largest hospitals instead of the so-called "Twilight Sleep." This apparatus gives Passavant hospital the latest, most complete and approved anesthetizing equipment.

Dr. Rowland left last night for his home in Girard, Ohio. He would have remained in Jacksonville one more day but was called away unexpectedly on account of the illness of his mother.

WILL UNDERGO OPERATION.

Mrs. Warren Daniels of Littenberry was brought yesterday to Jacksonville and placed in Dr. Day's hospital, where this forenoon she will undergo an operation for appendicitis.

CITY COUNCIL HELD VERY BRIEF SESSION

City May Change Boundary Lines of Property Near Drainage Ditch.

At the city council session Monday morning Mayor Davis and all commissioners were present. A request was received from A. L. Mirus, who has been operating a bowling alley on East State street, a kink for refund of a portion of his license money. He has discontinued business, and acting upon precedent, a portion of the license money which is required to be paid in advance, was returned.

Mr. Newman reported that Mrs. Ferguson, who owns some land adjacent to city property on North Main street, where a city sewer empties into the Mauvaissterra creek, is willing to make an exchange of properties which the city has desired. The matter was referred to Mr. Newman and Mr. Knollenberg, with power to act. Mr. Knollenberg explained that the city now owns a small parcel of land north of the drainage ditch, and Mrs. Ferguson owns a small tract south of it, and it is believed that an exchange of properties would be mutually advantageous. The council then adjourned.

WOULD TAKE FULTON'S

LAURELS

Washington, March 8.—That the discovery of the steamboat has a skeleton in the closet, and the credit accorded Robert Fulton for over a century belongs to one John Fitch of Connecticut, is the substance of a claim laid before Congress in the closing days of the 63rd Congress. Congressman Lonerger of Connecticut presented on the floor of the House the claim by the state of Connecticut that Fitch was the first man to place a successful steamboat in the water. The data in support of the claim had been gathered by the Admiral Buncce section of the Navy League of the United States, at Hartford, Conn. According to Representative Lonerger, Fitch was operating a steamboat in 1786, and that his invention dates back to 1785, which antedates the Clermont of Robert Fulton by 18 years. He presented the grants of New Jersey, Delaware, Pennsylvania, Virginia and New York, dated 1786 and 1787, the exclusive rights to use navigable waters in those states. In 1791, according to the Connecticut claim, the national government granted Fitch letters patent for his steamboat invention.

One of the most interesting details of the argument was the claim that a committee of the New York legislature heard the controversy between John Fitch and Fulton on the priority of invention pertaining to steamboats, and 101 years ago today, March 8, 1814, this committee reported that the Fulton steamboat was in substance the invention of John Fitch, patented by him in 1791.

ORGANIZE PACIFIC

IMMIGRANT WORK

Portland, Ore., March 8.—An important conference on immigrant work opened here today, when prominent ministers and Y. M. C. A. leaders from Pacific Coast cities gathered to discuss ways and means for caring for the influx of immigrants which is expected immediately after the close of the European War. Missionary workers attended in force and spoke of the new problems to be met. The present work among immigrants was discussed at great length, in relation to their general economic, social, educational and civic progress.

HUSTON WINS FIRST GAME.

Philadelphia, March 8.—Corwin Huston of Detroit today won his first game of the Class A, amateur billiard tournament for the national championship, defeating E. L. Milburn, Memphis, 400 to 206. Huston gathered a high run of 71 and averaged 7 43-51; Milburn's high run was 22 and high average 4 6-50.

Try "GETS-IT," It's Magic for Corns!

New, Simple, Common-Sense Way.

You will never know how really easy it is to get rid of a corn until you have tried "GETS-IT." Nothing like it has ever been produced. It takes less time to apply it than it does to read this. It

Kai-yil Corn-pains in Every Nerve! Use "GETS-IT," It "Gets" Every Corn Surely, Quickly!

will dumfound you, especially if you have tried everything else for corns. Two drops applied in a few seconds—that's all. The corn shrivels, then comes right off, painlessly, without fussing or trouble. If you have ever made a fat bundle out of your toe with bandages; used thick, compressing cotton-rings; corn-pulling salves; corn-teasing plasters—well, you'll appreciate the difference when you use "GETS-IT." Your corn agony will vanish. Cutting and gouging with knives, razors, files and scissors, and the danger of blood-poison are done away with. Try "GETS-IT" tonight for any corn, callus, wart or bunion. Never fails!

"GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.
Sold in Jacksonville and recommended as the world's best corn cure—by Armstrong's Drug Store—J. A. Obermeyer.

MEREDOSIA

Vera, daughter of Mr. and Mrs. Granville Floyd, has been quite ill with pneumonia.

Arthur and Wilbur Hale of Springfield, were in attendance at the funeral of Owen Hamman Friday.

The ladies of the Methodist church are making preparations for a chicken supper and bazaar, April 2nd. G. A. Hillier of Ursa was in attendance at the funeral of Owen Hamman last Friday.

Mrs. Clarence James returned Saturday to Jacksonville to remain until her daughter, Esther, will be able to return home from the hospital, which they think will be the latter part of the week.

William Roegge, Garrett Steinberg and David Leonard were county seat visitors Saturday.

Gladys Galloway and Ruth Reiman, students of Illinois College, spent Saturday and Sunday in the city.

Dist. Supt. Rev. F. A. McCarty of Jacksonville, preached at the Methodist church Saturday night and held the Quarterly conference at the close. He also preached Sunday morning and conducted the Sacramental service.

George Burgess and Charlie Root of Versailles attended the band concert Thursday evening.

Mrs. Merriss has returned home from an extended visit with relatives at Perry and Griggsville.

Fred Hall, of Jacksonville, visited over Sunday in the city with his parents, Mr. and Mrs. J. E. Hall.

Mr. and Mrs. J. H. Looman visited friends in Jacksonville Monday and Tuesday.

Miss Ada Reiman of Jacksonville visited her parents, Mr. and Mrs. Frank Reiman last Sunday.

The entertainment given by the Meredosia Concert Band at the Ray Opera house, Thursday evening was well attended. The program consisting of marches, overtures and descriptive selection by the band, orchestra selections, male quartettes, trios, cornet and saxophone solos, was well rendered. The band consists of thirty-two members and was organized in October, 1914, by Dr. F. Carl Yeck, and for the short time it has been organized does splendid work. Much credit is due the director, Dr. Yeck in his efforts to make it what it is. The band realized about \$75 for their efforts.

Rev. S. A. McIntosh attended the ministerial meeting in Jacksonville, last Monday and Tuesday, which was held at Centenary church.

The steamer, Bald Eagle, made its first trip of the season from St. Louis last Sunday.

MOVE TO RAISE THE

ALLEGHENY BRIDGES

Washington, Mar. 8.—The objectors to the War Department's plan to order the raising of the bridges over the Allegheny River were given until today to present their claims. The bridges in question are located at Pittsburgh, and the river interests want to clearance under the bridges to be increased so that boats of all kinds can go under them. Three of Secretary Garrison's predecessors in office have declined to order the bridges raised.

DEFY PRINCETON'S PRESIDENT

Princeton, N. J., March 8.—Although the doors of Princeton University were closed to "Billy" Sunday, the evangelist, he will address the students in a church apart from the campus this afternoon under the auspices of the Princeton Theological Seminary. Pres. Hibben of Princeton has persisted in barring Sunday from the college halls, after listening to him deliver his famous "baseball dope" sermons in Philadelphia.

COLORED MAN SHOT DURING ALTERCATION

WILLIS BLUE KILLED HIS HALF-BROTHER, LEE, SUNDAY MORNING.

Plea of Self Defense Believed by Coroner's Jury and Man is Freed From Murder Charge—Trouble Began While Family Was at the Breakfast Table.

Following an altercation Sunday morning about 9 o'clock, Lee Blue was shot and killed by his half-brother, Willis Blue. The shooting occurred at the home of the latter, No. 1034 Beesley avenue, which is near the corner of Walnut street. A telephone message brought news of the shooting to the police department, and Chief of Police Davis, Sergeant Kiloran and Officers McGinnis and Eads went immediately to the scene. Blue was found in the house and surrendered without any hesitation. He was brought to police headquarters by Chief of Police Davis and Sergeant Kiloran, and later was lodged in the county jail. The other officers remained at the house until the dead man was conveyed to Reynolds' undertaking establishment.

An inquest was held by Coroner Wright Monday morning at the court house, and after consideration of the evidence, the jury returned a verdict freeing Blue from the charge. His story was that he acted in self-defense and this was corroborated by a number of witnesses. The whole circumstances were such that the jury thought the self-defense claim was well substantiated. It seems that Willis Blue lives with his step-mother, Mrs. Susan Blue, and that other residents of the house are Mrs. Mattie Woodson and Bertha Hughes both of whom are related by marriage to Mrs. Blue.

Story of Shooting.

According to the story of witnesses about 8 o'clock Sunday morning Lee Blue, who spent part of the time only at the Blue home, arrived there when the family was at breakfast. It is said that he was accompanied there by G. M. Brown, and went into the dining room, laid down sixty cents before Willis Blue, and calling him a vile name, said, "There were further words and then Lee Blue, with an open knife in his hand, jumped on Willis Blue, threatening to cut his throat with a knife. At this point Lee Blue was pulled off of his antagonist by Brown, who took the knife away from him. Then, according to the story, Lee Blue seized a piece of iron pipe and started to attack Willis Blue, when the latter rushed from the house, and as he did so, seized a single barrel shotgun, which was standing in the corner in the house.

It is said that Willis Blue warned the man who was pursuing him three or four times to keep back and

to stay away from him, but the warning was not heeded, Lee Blue vowing that he would crush his half-brother with the iron pipe. Then Willis Blue shot and the charge struck his pursuer in the left side of the head back of the ear, and he fell to the ground mortally wounded. He was lying on the snow dead when the police arrived.

Willis Blue was in the house and told the police that he had done the shooting and that it was either kill or be killed. This story was corroborated by Bertha Hughes and Mattie Woodson, who when Lee Blue came into the room fled from the house as they saw that there was going to be trouble, but they viewed the altercation from houses nearby.

Samuel Crutchfield, who lives near the Blue home, testified somewhat as to the character of Lee Blue, who it is said has been very quarrelsome and has raised trouble at various times in the home of his step-mother. It is also stated that the man was tried for murder two or three years ago in Sangamon county, where in a fight he kicked a man very seriously, who subsequently died. However, Blue was tried and acquitted.

Other Witnesses.

Another witness was Herbert White, who lives in the neighborhood and saw the shooting through the window of his home. J. W. Fanning happened to be passing the house at the time and he also testified in favor of the defendant, Willis Blue, who has the appearance of a man of fifty, says that he is sixty-five years of age and that he has lived in Jacksonville for fifty-two years. It is said that he has never been in serious trouble during that time.

The jurors were as follows: J. W. Muse, foreman, Joseph Fanning, Charles Stark, John S. Easley, Charles W. Tinsley and J. W. Priest, clerk. State's Attorney Robert G. Tilton and Deputy Coroner Reynolds were present at the inquest and interrogated the witnesses. The testimony was taken down in full by Henry English for use if desired later by the grand jury.

Willis Blue who did the shooting is now in the employ of J. W. Baptist as a coal hauler and for many years worked for the late J. W. York. He is accounted as industrious and of good disposition. Lee Blue who was shot to death had been for eight years in the employ of William Nunes and was considered one of his best workers and not given to quarreling or bad conduct generally. Mr. Nunes said last night that Lee Blue was one of the best workers and one of the most peaceful men he ever had around the place.

The funeral will be held Wednesday morning at 10 o'clock at 330 North West street. The deceased is survived by his mother, Mrs. Susan Blue; the following sisters, Dora Blue, Springfield; Felba Woodson, Des Moines; Mrs. Harriet Roberts, Jacksonville; Mrs. Charlotte Partridge, Jacksonville; brothers, William Blue, Chicago; Thomas Woodson, Peoria; John and James Blue, Jacksonville.

A SAFE WAY TO STOP INDIGESTION.

Without Fear of Weakening the Stomach—Works Fine in Any Case and Brings Relief in Ten Minutes.

The greatest folly of today is committed by people with weak dyspeptic stomachs who take artificial digesters to cure indigestion.

Artificial digesters—pepsin pills, etc.—simply encourage a lazy or tired out stomach to shirk its work by doing most of its work for it. This is fine for a time but as every chronic dyspeptic knows, artificial digesters soon lose their efficiency. Where one once did the trick three or four are now required and the poor old stomach itself is worse off than ever.

Your stomach must be strong enough to expand and contract with a sort of churning movement so as to mix its digestive juices with your food. If your stomach isn't strong enough to properly churn your food, you will keep right on having indigestion after every meal until you make it strong. There is one stomach remedy that every dyspeptic can depend on as surely as that the sun will shine tomorrow and that is the famous old MI-ONA Stomach Tablets. Most stomach remedies let the stomach rest and digest the food themselves. MI-ONA won't digest anything but it will strengthen and stimulate the stomach and make it do its own digesting. It stops stomach pains, gas, bloating, burning, belching, etc. in ten minutes and does still better by making the flabby, inflamed and inactive stomach walls grow strong and elastic and able to do their own churning. MI-ONA Tablets never lose their effect and unlike mere artificial digesters need not be used forever. A few weeks use is generally sufficient to put any stomach in fine shape and Coover & Shreve and many other leading druggists hereabouts sell it with that understanding, agreeing to refund money to anyone who does not get complete relief.—Advertisement.

DON'T USE SOAP ON YOUR HAIR

When you wash your hair, don't use soap. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulsified coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

RESIGNATION OF PASTOR DAVIS ACTED UPON BY PRESBYTERY

Meeting Held in Springfield and Westminster Pulpit to be Declared Vacant April 11.

At a meeting of the Presbytery, held in Springfield Monday, Rev. S. M. Morton, D. D., of Taylorville, was chosen as acting Moderator and Dr. D. G. Carson as temporary clerk. The Rev. L. H. Davis, pastor of Westminster church, presented his request for the dissolution of his pastoral relation with Westminster church.

Elder Ensley Moore, as commissioner from the church, stated that, at Mr. Davis' earnest request the congregation had joined in Mr. Davis' wish, and expressing the regret of the people generally at his decision to resign. Elder W. T. Brown as clerk of the session of Westminster church read the resolution adopted by the church upon its acceptance of Mr. Davis' resignation. The resolutions were ordered spread upon the minutes of the Presbytery. Remarks, most complimentary to Mr. Davis and his work were made by co-presbyters D. C. McLeod, G. T. Gunter, A. G. Bergen, S. M. Morton and W. J. Rainey.

The Rev. S. M. Morton, D. D., was appointed to declare the pulpit vacant on the second Sabbath of April. Rev. W. J. Rainey of Pisgah church was appointed Moderator of the session of Westminster church, during the vacancy of the pulpit. The session was given authority to make temporary supply of pulpit during vacancy. Mr. Davis was given leave to labor outside the bounds of the Presbytery.

The call to Rev. A. G. Bergen to become pastor of the Fifth Presbyterian church of Springfield, from the congregation, was put into the hands of Mr. Bergen. Dr. Bergen stated his acceptance of the call.

Mr. Bergen and Elder Burn De Long were appointed to arrange for the installation March 9. The committee reported and the report was accepted. A committee of three was appointed to present resolutions regarding the resignation of Mr. Davis to the Presbytery. They were Dr. Bergen, Mr. Rainey and Elder W. T. Brown.

WILL GIVE HAMLET.

Illinois College Students to Present Play Friday Night.

Few readers of Shakespeare would rather see other tragedies than Hamlet which is to be presented by the Illinois College Dramatic club at the Grand, Friday night, March 12. This is the first tragedy the I. C. club has undertaken. For several years the college organization has been playing Shakespeare and has gained an excellent reputation. This year the student body affords several men and women of extraordinary ability in tragedy. Henry Caldwell who was selected to play the role of Hamlet has an exceptional talent. His work has often been compared to that of professionals. Other "leads" are being taken by Miss Clara Lane as Gertrude; Miss Lois Daniels as Ophelia; Edward Bullard as King; Edward Alexander as Laertes and Viggo Jensen of Palomus.

This year the costumes will be entirely new, having been selected by Prof. J. G. Ames with the assistance of Miss Millicent Rowe from a Chicago house. To Prof. Ames, Miss Cole, and Miss Capps will be due the credit of the success of the play. They have given much time and labor to its perfection. The proceeds go to assist the different student enterprises of Illinois college.

MATRIMONIAL

Cameron-Logsdon.

Ira Cameron and Miss Bessie Logsdon of Cooperstown, Brown county, were united in marriage Monday morning at 9:30 o'clock by W. T. Dyer, justice of the peace, at his office, 233 1-2 West State street. The witnesses to the ceremony were J. A. Crum and T. H. O'Brien. The groom is a farmer and with his wife reside on a farm in the vicinity of Cooperstown.

New pumps, new power line, clean pure water now. Dr. Bartow of the state water survey, University of Illinois, made an analysis of the water August 31, 1914 and declared it safe. A vote for J. F. Brennan will show approval of the course followed. (Adv.)

SUNDAY SCHOOL CONTEST.
Sunday was the first day of the contest for attendance and offerings of Grace M. E. church, between the men and the women. Many new pupils were present and the interest was marked which argues well for the coming Sundays. Harlan Williamson's class of boys was done in attendance and they also gave the largest collection. The losers of the contest are to give a banquet to the winners, according to a previous arrangement.

WILL CHANGE RESIDENCE.
Mr. and Mrs. O. E. Tandy who have been living at 603 West College street, expect to move the latter part of the week to the Cherry Plats on West State street, and will have rooms on the first floor.

ATTENDED FUNERAL.
Mrs. George Staples, Miss Ella Morrow, Mr. and Mrs. Frank Smith, Mrs. Fannie McKane and Miss Winnie Kingsley of Woodson attended the funeral of Mrs. Thomas Parker Monday.

If you think I have served the people well, I will appreciate your vote today. J. F. Brennan. (Adv.)

SOCIAL EVENTS.

Relatives Surprise

Mr. and Mrs. George Wilson.

In honor of the eightieth birthday of George Wilson a number of the members of his family surprised him and Mrs. Wilson by gathering at the home on Sandusky street for dinner Monday. They brought with them an abundance of good things and several hours were very pleasantly spent. Mr. Wilson, despite his years, is still in good health and quite active. Among those present were Mr. and Mrs. J. V. Richardson, of the Point neighborhood; Ernest Wilson, Mr. and Mrs. George Beckman, Mr. and Mrs. Charles Fawcett and daughter Ursula.

Monday Conversation Club in Annual Election.

"Mexico" formed the theme of a profitable meeting of the Monday Conversation club yesterday afternoon at the home of Miss Idella Walton, 1320 West State street. Miss Della Dimmitt was leader and Mrs. M. F. Dunlap and Mrs. F. H. Rowe assisted in discussion. During the social hour delicate refreshments were served. Officers as follows were elected for the year ensuing:

President—Mrs. W. H. Hinrichsen.
Vice president—Miss Janette Powell.
Secretary—Miss Lillian Davis.
Treasurer—Miss Della Dimmitt.
Press correspondent—Miss Idella Walton.

L. W. C. Freshman

Entertain Juniors.

One of the happiest events of the school year took place last evening at Illinois Woman's college when the members of the freshman class entertained the juniors. The society rooms were prettily decorated with palms and ferns and white roses were used in carrying out the color idea of green and white. Very charming was the effect of the candle light upon the decorations. Music, vocal and instrumental, formed pleasant diversion and the guests at a convenient hour enjoyed elaborate refreshments. Special guests were Dr. and Mrs. Barker, Miss Jennie Anderson, Miss Mothershead and in the receiving line were Miss Vivian Koppinger, president of the freshman class; Miss Hull, the class adviser; Miss Dorothy Westphall, Miss Mildred Spencer, Miss Maud Strabinger and Miss Mabel Osborne.

Elite Club Members

Enjoy Box Party.

Members of the Elite Club to the number of ten enjoyed a box party last evening at the Grand, going thence to the Peacock Inn for a two-course luncheon. Miss Frances Alkire gave a reading and each of the young ladies responded to a toast when called upon by the president.

R. L. Harney has received a sample of "smut nose" corn from Rev. G. W. Burnett, formerly of Lymanville and now of Surlings, Wisconsin. The grains are very large with only twelve rows and the corn is said to frequently produce 100 bushels to the acre.

CITY TEACHERS PROTEST AGAINST SCHEDULE CHANGE

The salary schedule formed the chief topic of consideration at a meeting of the city teachers at 3:30 o'clock Saturday afternoon. Supt. C. E. Collins read a paper in which was set forth the history of the present schedule of salaries under which the teachers are working. He called attention to the attempt made in the board of education to change the schedule and dwell upon the issues involved. The teachers passed resolution of protest against any change in the schedule by a vote which was practically unanimous, 55 voting in favor of the resolutions of the 59 present.
